**Subject:** Request for Extension: NOV for EPA ID No. WAD 00927 6197 (Shell Puget Sound Refinery)

**Categories:** Record Saved - Shared

Dear Ms. Williams:

This letter is in response to the Notice of Violation (NOV) issued to “Shell Anacortes Refinery” dated March 22, 2017 from U.S. EPA Region 10. Shell Puget Sound Refinery received the NOV on Monday, March 27<sup>th</sup> via certified mail.

In our interests in providing to you our best information, Shell Puget Sound Refinery is requesting 40 days to respond from the date of receipt (an additional 20 days). This extension would allow us sufficient time to gather all the requisite materials, while helping us accommodate many personnel taking vacation over the next week during our schools’ spring breaks. From the date of receipt, 40 days total would allow us to respond with a postmark of no later than 6 May. Please let us know if this is acceptable to you.

Thank you so much and thank you for your time taking my phone call this morning.

Sincerely,

**Nathan Biletnikoff**  
Environmental Manager
